Bulletin of Environmental Contamination and Toxicology

Volume 39 • 1987

Editor-in-Chief: Herbert N. Nigg
Agricultural Research and Education Center, University of Florida,
700 Experiment Station Road, Lake Alfred, FL 33850

Associate Editors

Analytical Methodology

Yutaka Iwata
Stauffer Chemical Company
1200 South 47th Street
Richmond, CA 94804

Aquatic Toxicology

Dora R. May Passino
National Fisheries Center-Great Lakes
1451 Green Road
Ann Arbor, MI 48105

Environmental Distribution

James Adams
9633 Cottrell Terrace
Silver Spring, MD 20903

Metabolism and Biochemistry

Ronald S. Pardini
Department of Biochemistry
University of Nevada-Reno
Reno, NV 89557-0014

Physiological and Pathological Studies

John M. King
Cornell University
NYS Veterinary College
Ithaca, NY 14853

Toxicology

James B. Knaak
California Dept. of Health Services, Room 1392
Community Toxicology Unit
714 P Street
Sacramento, CA 95814

Editorial Coordinating Committee: George W. Ware, Editor—*Reviews of Environmental Contamination and Toxicology;* Arthur Bevenue, Editor—*Archives of Environmental Contamination and Toxicology;* and Herbert N. Nigg, Editor—*Bulletin of Environmental Contamination and Toxicology*

SUBJECT INDEX - VOLUME 39

Acid Rain, acid, Al effects on frogs
    sodium loss, fish mortality
Aminoazobenzene, oxidative pathway after reduction
    reductive metabolism
Anthracene, fate in trout
Arsenic, in children near copper smelter
Atrazine, growth rate depression in algae
    in groundwater
    persistence and movement in salt marsh
    removal from fabric
Azoreductase, properties, Pseudomonas

Benzene, N-butyl, n-hexyl, n-octyl metabolism, trout
    oxidative pathway of reduced aminoazobenzene
    reductive metabolism of aminoazobenzenes
Benzidine, assay by LC
Benzo(a)pyrene, asbestos catalyzed oxidation
    glucuronide and sulfate conjugates, soybean
Benzofuran, dibenzofuran from flame retardant
    in American lobster
Bioassay, air pollution, leaf structure
    aniline in food oils
    benzidine in soil solution by LC
    dichlorobenzilic acid in human urine
    ELISA for paraquat
    factorial design for synergistic effects in the
        environment
    green peach aphid plant preference
    mole and earthworm as heavy metal indicator
    mycoassay of essential oils
    reference chemicals in aquatic toxicology
    RIA for paralytic shellfish toxins
    tributyltin by AA
    22 yeasts for T-2 toxin
Butachlor, fate in river water, shellfish, sediment

Cadmium, acute toxicity to amphipods and crustaceans
    calcium effect on absorption, toxicity
    coexposure effects w/ethanol
    in livestock, Italy
    seasonal variation of Murex
    Zn reversal of tissue damage
Carbaryl, effect of phenobarbital on metabolism
    removal from fabric
Carbofuran, biodegradation in pretreated and
        nontreated soil
    degradation in soil
Chlomethoxynil, fate in river water, shellfish, sediment
Chlordane, effect on testicular tissues, mice
    levels in home air
    in residences, NJ
    in residences, NJ
    urban area correlation with fish residues

Chlordecone, exposure and liver weight 615
Chloroacetone, degradation 549
2-Chloroethanol, fatty acid conjugate, chloroethylstearate 835
Chloroethylstearate, fatty acid conjugate of 2-chloroethanol 835
Chlorpyrifos, degradation in soil 579
levels in home air 533
Cholesterol, hypocholesterolemic activity of dichlorophenoxypropionic acid 966
CNP, fate in river water, shellfish, sediment 555
Cobalt, effect on Spirulina platensis 716
Copper, copper sulfate accumulation in carp 370
toxicity and accumulation in crab 708
toxicity to freshwater snail 50

DDD, NADPH cyt. P-450 reductase and DDT detoxication 327
DDE, in dairy feeds, Arizona 587
DDT, effects on immune response 827
in human milk 756
NADPH cyt P-450 reductase to DDD 327
subchronic dose and humoral immune response 822
DDVP, home fogging and reentry 762
Detergents, toxicity to snail 1036
Dibenzofuran, brominated dibenzofuran from flame retardant 953
Diflubenzuron, effect on larval crab 224
fate in Appalachian forest 142
Dioxin, immuno effects in quail 481
in American lobster 1069
in blue mussel, Japan 877

Ethanol, toxicity to Daphnia Magna and Ceriodaphnia dubia 229
Ethoprop, degradation in soil 579

Fenitrothion, effect on bird cholinesterase 304
Fonofos, degradation in soil 579
Fluazifor-butyl, persistence in soils 150
Fluoride, effect on intestinal brush border membrane 162
movement in salt marsh and sheep 945
Fungicides, residues in fruit, Canada 272

Garlon, toxicity to juvenile salmonids 721
toxicity to salmon, trout, Daphnia 15
Glysophate, toxicity to trout and salmon 1028
Guanidinium, biodegradation in soil 974

Haloxyfop-methyl, persistence 797
Heavy Metal, bacterial resistance, Ar, Cu, Se 990
calcium, cadmium toxicity, absorption 453
Cd, Cu, Zn, Pb in human renal calculi 343
Cd seasonal variationt in Murex 69
Cd toxicity to amphipods and crustaceans 884
Co, effect on Spirulina platensis 716
crab tolerance to Cu, Hg, Cd, Zn 1020

Cu, toxicity and accumulation in crab 708
Cu toxicity to snail 50
ethanol, cadmium coexposure effects 633
Fe in steelworker hair 608
Hg, accumulation and growth in Azolla spp 701
Hg, body size and content, bivalve 56
Hg and taurine transport 202
Hg in soils w/different humus 593
Hg in water and marine organisms 406
in aquatic organisms, Spain 1076
in crayfish from neutralized acidic and nonacidic lakes 401
in fish, Egypt, As, Cd, Cu, Pb, Hg, Zn 889
in mole and earthworm 933
levels and age in sediments 214
Pb accumulation in soft tissues 334
Pb, casein diet and fetal development 641
Pb, Cd in livestock 460
Pb effect on male reproduction, rat 448
Pb poisoning diagnosis in steers 622
Pb uptake and loss in crab 63
supplement effects on Pb accumulation 209
uranium toxicity to rats and mice 168
Zn toxicity to freshwater snail 45
Zn toxicity to juvenile and subadult trout 898
Heptachlor, changes in fish kidney and blood 1006
in residences 511
Herbicide, atrazine in ground water 807
biphenyl ethers and procarcinogen metabolism, trout 175
drift of propanil 126
fate in river water, shellfish, sediment 555
fluazifop-butyl persistence in soils 150
persistence and movement of atrazene 516
persistence of haloxyfop-methyl 797
propanil effect on plankton oxygen production 245
removal of residues from drums 680
residues in fruit, Canada 272
toxicity of Garlon and Roundup to fish, Daphnia 15
toxicity to juvenile salmonids 721
triclopyr excretion in bovine 443
triclopyr persistence 134
Human, arsenic exposure near copper smelter 114
Cd, Cu, Zn, Pb in renal calculi 343
chlordane and chlorpyrifos in home air 533
chlordane and heptachlor in residences 911
chlordane in residences 903
DDT, PCB, HCB, HCH in milk 756
exposure to propanil 126
4,4'-dichlorobenzilic acid in urine 498
Fe levels in hair of steel workers 608
home foggers and reentry 762
OP poisoning and erythrocyte effects 802
organochlorine and PCB in milk, Italy 919
organochlorines in breast milk 743
organochlorines in breast milk 506

PCBs in milk
sulfuryl fluoride desorption from household commodities
Hydrazine, microbial degradation
microbial degradation in soil and water

Insecticides, residues in fruit, Canada

Kepone, effect on liver enzymes

Lead, diagnostic criteria for poisoning in steers
effect on male reproduction, rat
fetal development and casein diet
in livestock, Italy
soft tissue accumulation, rabbit
supplement effects on accumulation
uptake and loss in fresh water crab
Lindane, acetylcholinesterase activity effects

Mercury, accumulation and growth effects, Azolla
body size and content in bivalve
effect on taurine transport
in soil w/different humus
in water and marine organisms
Methylene chloride, toxicity to fathead minnow
Methyl-mercury, body size and content in bivalve
Methyl Parathion, dissipation from cotton foliage
Modeling, factorial design for synergistic effects
Monocrotophos, algae metabolism
Mutagenicity, biphenyl ether herbicide and
procarcinogen metabolism
degradation of chloroacetones
nitrohumic acid
Tama River Sediments
Mycotoxin, bioassay with 22 yeast strains
chaetochromin teratogenicity

Natural Products, mycoassay of essential oils
Nitrohumic acid, mutagenicity

Oil, crude oil toxicity to carp
food oil aniline analysis
vegetable oil factory effluent, effect on
Channa punctatus
Organochlorine, chlordane testicular effects
chlordane, urban areas and fish
chlorination of phenolic water contaminants
DDE in dairy feeds
DDT, PCBS, HCB, HCH from human milk (in mice)
degradation of chloroacetones
diflubenzuron effect on crab
dioxin immune effects in quail
dioxin in blue mussel, Japan
in aquatic organisms, Spain
in Arabian Sea sediments

in human milk, Italy
in human milk, Turkey
in human urine, dicofol
in mink, Lake Erie
in NE Alberta otters
in raccoons, Kansas
in river sediment, New Jersey
kepone effect on liver enzymes
lindane effects on AChase activity
liver weight and chlordecone exposure
methylene chloride toxicity to fathead minnow
PCB and pesticides in Australian fur seal
PCB, bird reproduction and progesterone
PCB in blue crab
PCB in flounder
PCB in human and monkey milk
PCB, TCDD in turtle eggs
pentachlorophenol toxicity to bass
phenochlor effect on MFO, liver and blood lipids
recovery from adipose tissue
residues in agricultural soils
residues in breast milk, Canada
subchronic DDT and humoral immune response
subchronic DDT and immune response
TCE induction of epoxide hydrolase
toxicity to European eel
volatile halocarbons in animal blood
Organophosphate, posioning in humans and erythrocyte effects

Paraquat, accumulation in carp
ELISA assay
Parathion, dissipation from cotton foliage
PCB, bird reproduction and progesterone levels
comparison in human and monkey milk
in Australian fur seal
in blue crabs
in flounder
in Lake Erie mink
in turtle eggs
metabolism of 2-chlorobiphenyl in suspension culture
midge larval absorption
Phenochlor, effect on MFO, blood and liver lipids, rat
Phenol, chlorination of water contaminants
Pentachorophenol, effect on largemouth bass
Phthalate, effect on aggregation and growth of phytoplankton
Phorate, degradation in soil
Propanil, drift
effect on plankton oxygen production
exposure of nonapplicator personnel
Propoxur, home fogging and reentry

Quinalphos, algae metabolism

Rodeo, toxicity to trout and salmon 1028
Roundup, toxicity to fish and Daphnia 15
toxicity to trout and salmon 1028
R-plasmid, transfer in soil 74

Selenuim, levels and age in sediments 214
toxicity, teratogenesis, bluegill 998
Sewage, coliphages and bacteria in ground water 92
Sewage Sludge, plants and green peach aphid preference 257
Simetryne, fate in river water, shellfish, sediment 555
Sodium Lauryl Sulfate, effect on rat liver and kidney enzymes 425
toxicity to snail 1036
Soil, micororganisms in soils w/accelerated pesticide degradation 776
organochlorine residues 286
R-plasmid transfer 74
Sulfuryl Fluoride, desorption from household commodities 769
Surfactant, biodegradation kinetics 385
sodium lauryl sulfate and rat liver and kidney enzymes 425

TCDD, in turtle eggs 791
Teratogenesis, selenium in bluegill 998
Teratogenicity, chaetochromin to mouse embryos 299
Terbufos, degradation in soil 579
Tin, toxicity of tributyltin to mollusc embryo and larvae 1012
Tributyltin, acute toxicity to mollusc embryo and larvae 1012
analysis in salmon by AA 412
Trichlopyr, excretion in bovine 443
persistence in pastures 134
toxicity to juvenile salmonids 721
Trichoroethylene, induction of epoxide hydrolase 630

Uranium, toxicity in rats and mice 168

Vanadium, in arctic bivalve 1063
toxicity to freshwater organisms 194
Volatile, air pollution effects on leaf structure 474
asbestos catalyzed oxidation of benzo(a)pyrene 312
benzopyrene conjugates, soybean 294
chlordane and heptachlor in residences 911
chlordane in residences 903
halocarbons in animal blood 122
halocarbons in process water and food 601

Water, acid rain and frogs 37
acid rain, sodium loss and fish mortality 7
anthracene in trout 29
atrazine depression of algal growth 1041
atrazine in groundwater 807
benzene metabolism in trout 182
chlordane from urban areas and fish 563

chlorination of phenolic contaminants 393
coliphages and bacteria in groundwater 92
crude oil toxicity to carp 188
dioxin and dibenzofuran in American lobster 1069
ethanol toxicity to Daphnia and Ceriodaphnia 229
hydrazine degradation 541
mutagens in Tama River sediment 701
neutralized acidic, nonacidic lakes and metals in crayfish 40
organochlorine and heavy metals in aq. org., Spain 1076
organochlorine in sediments, Arabian Sea 1049
organochlorine toxicity to eel 365
PCB absorption by Midge larvae 1055
pentachlorophenol toxicity to bass 379
phthalate effects on phytoplankton 1
rates of chemical biodegradation in natural waters 237
reference chemicals in aquatic toxicology 23
RIA for paralytic shellfish toxin 264
sodium lauryl sulfate toxicity to snail 1036
surfactant biodegradation kinetics 385
trace metal, organochlorine, river water, NJ, USA 465
vanadium in artic bivalve 1063
vanadium toxicity to freshwater organisms 194
vegetable oil factory effluent effect on Channa punctatus 47
volatile halocarbons in process water and food 601

Zinc, effect on freshwater snail 45
reversal of Cd tissue damage 350
toxicity to juvenile and subadult trout 898
Zinc Acetate, sex and age mortality in mice 156
